#### Service with Trust

SMARTit keeps its engineers up to date with latest training for hardware and software from many vendors. This gives its customers the best support for a wide range of products and services. These include: Microsoft, HP, Dell, Trend, Netgear, Trixbox, Asterisk, ZyWall and Sonic Wall.

#### Geographical Support Regions

SMARTit is located in the beautiful green countryside of [Surrey](#). This provides the ideal location for supporting central London and southern areas. These areas currently include: London, Welwyn Garden City (Herts), Reading, Weybridge, Reigate/Redhill, Dorking, Horsham and Crawley.

#### Communication

SMARTit believes communication is key, unlike some companies we communicate by way of telephone and not just email, we are always available during office hours by means of Unified Messaging, meaning if you leave us a voice message on an answering machine it is emailed to the relevant persons Blackberry, or Windows Mobile.

#### Continuity

We don't want you to think of us as an external company but more internal staff. We can listen to your problems and resolve, offer advice on potential financial savings, implement projects and be middle men when dealing with 3rd party companies. We can do this at a fraction of the annual cost of a single employee with no sick days.
