Looking for new hardware or software?

We can provide a wide range of hardware and software; this includes computers, laptops, screens, servers, external hard drives etc. Our prices are competitive and we can supply most the next business day.

If you would also like us to install and configure your new hardware we will be happy to quote you for this too, typical items you might want us to install: memory upgrades, new computers setup, routers etc.

Mobile Phones and Contracts

We have teamed up with a Mobile Phone provider so we are able to offer customers mobile phones with WEB 'n' WALK functions. If you are looking for Blackberry services, we install and maintain these on a per user basis. Please contact us for details and costs.
