! SAVE UP TO 80% of your internal IT costs by outsourcing

Our internal helpdesk and technical engineers are on hand to ensure you have the same, if not better technical knowledge and hands on experience to protect your IT infrastructure. If you are looking to cut back your internal IT department we can save you money.

The service is customisable but includes:

- Telephone support for all staff
- Remote control of all machines to enable fast efficient problem resolution
- Onsite engineer for hardware failures
- Asset and warranty management of all machines
- Remote monitoring of servers and their critical services

We can also discuss annual IT projects you have planned and help build costing and project plans keeping continuity between your business growth and the IT systems.
